

G2U - a second life for every treasure

Course ID.: CPE-334

Submitted By-

Chawit Pimapansri	(ID: 65070503411)
Sorawit Tonpitak	(ID: 65070503438)
Jutamas Kaewchuenchai	(ID: 65070503444)
Nichaporn Manachaiprasert	(ID: 65070503446)
Thanakit Chokbunsuwan	(ID: 65070503448)
Arita Tragulmalee	(ID: 65070503470)
Yuil Tripathee	(ID: 65070503480)
Tom Medhi Pannier	(ID: 67540460025)

Submitted To-

Department of Computer Engineering
in partial fulfillment of the requirements
for the completion of
CPE-334 Software Engineering course.

Supervised by-

Dr. Natasha Dejdumrong
Associate Professor
Department of Computer Engineering

King Mongkut's University of Technology Thonburi(KMUTT)
Bangkok-10140, Thailand
1/2024

Revision History

Revision	Date	Author(s)	Description
v0.1	2023-04-21	John Doe, Jane Doe	First release, include trial results
v0.2	2024-11-05	Tom Medhi Pan- nier	Add EU market evaluation

Abstract

We would like to think about it later.

Keywords: *We would like to think about it later.*

Acknowledgments

We would like to think about it later.

List of Tables

List of Figures

1.1 The proposed tree structure for the array implementation.	2
---	---

Part I

Project Description

Chapter 1

Introduction

1.1 Background

1.2 Market study

1.2.a SEA Market

1.2.b EU Market

1.3 Scope of work

1.4 A dummy section

Figure 1.1: The proposed tree structure for the array implementation.

Chapter 2

Project Management

TODO: Comparative analysis of each methodology and what they deliver

2.1 Incremental funding methodology

Used for high level decisions.

2.2 Agile Method with Kanban Tool

Used for low level decision and workflow orchestration.

Part II

Requirements

Chapter 3

Requirements Elicitation

3.1 Elicitation Techniques

3.2 Stakeholders

3.3 Data Flow Diagram

3.4 Use Case Diagram

3.5 Functional Design

3.6 Usability

3.7 Other Non-functional requirements

3.7.a Mandated constraints

Examples include: Economics

Chapter 4

Usability Requirements

Part III

Design and Development

Chapter 5

Systems Design

5.1 Software Architecture

5.2 Class Diagram

5.3 Components Diagram

5.4 Sequence Diagram

5.5 Deployment Diagram

5.5.a Demonstration model

5.5.b Full scale production model

Chapter 6

Implementation

6.1 Low Code

6.2 Prototyping

6.3 Coding

6.4 Systems Integration

Part IV

Test and Evaluation

Chapter 7

Evaluation of Outcomes

7.1 Testing Methodologies

7.2 Results

7.3 Discussion

Chapter 8

Conclusion

8.1 Discussion

8.2 Future Work

8.3 Recommendation
